

**PUBLIC CHARTER SCHOOLS**

“Embrace the future”

**NOTICE TO PARENTS REGARDING MEAL MODIFICATIONS**

Special Meal Modifications may be made to accommodate specific dietary needs with a physician’s order stating the child’s diagnosis and a list provided of foods to be modified in the diet. This includes all texture modifications as well.

Examples are a gluten-free diet, carbohydrate-controlled, or calorie modification. Modification for allergies to tree nuts, peanuts, dairy, egg, soy, and others.

Fluid milk may be refused by the child, but a nutritionally adequate milk replacement (such as soy milk, almond milk, or lactose-free milk) requires a physician’s order. Water is provided to all children at every meal.

For questions regarding meal modifications please contact Seth Buckman, Child Nutrition Director at (501) 916-9450 ext 241 or send an email to [sbuckman@lisaacademy.org](mailto:sbuckman@lisaacademy.org)

It is our goal to support good health and readiness for learning by providing a healthy meal to every student in our district.

Thank you and have a wonderful day,

*Seth Buckman, MS, RDN, LDN*
